The Diocese Of Wheeling Charleston Virginia has developed a video based parent/child curriculum where both parents and teens watch a short video each month and then split up to discuss it. They did a whole year on the Creed. Remember that they are geared toward the teen but some of them can be helpful for all and they are very short!

The last Resource is a video of a Protestant taking a tour of a Catholic Cathedral and learning more about What Catholics believe. It is not specific to the creed but their conversation once it gets going is an excellent explanation of what Catholics believe beyond the creed.
